THE FAMOUS TROTTING MATCH

"J. I. C., the celebrated trotting horse, (named after his owner J. I. Case, Esq.;) was recently entered at Prospect Park, Brooklyn, to lower his own record of 2.10, so as to beat "Maud 8," Vanderbilt's great mare, the fastest animal on record, and whose time was 2.092. The excitement was intense, 6,000 people having assembled to witness the contest, every one being eager and expectantly looking for the favorite to appear. At about 3 o'clock p. m. "J. I. C.," amid tremendous applause, came down the track, passing the Grand Stand of the Judges, throwing first one ear and then the other forward, as if in recognition of the cheering of the crowd, then passing once around the race course, just to get warmed up and prepare himself for the race, the excitement running higher every minute, until "He is off! He is off!" echoed through the crowd. And sure enough, he was off! With rapid strides he moved on, on, increasing his speed at every step, fairly flying through the air, as if by magic, passing around the curves like a whirlwind; then coming in plain view of the spectators, every-body on tip-toe, and the excitement of the people was at fever heat to get a glimpse of the beautiful black steed as he dashed along. Passing by the Grand Stand he slacked up, by the Grand Stand he slacked up, and after returning in front of the Judges' Stand, in a few moments the Board announced the record at

2.192, at the second trial at 2.14, and the third time at 2.122. Now, ladies and gentlemen, we want it understood that we are always in the race for giving low pri-ces, and competing in our lines le-gitimately with ANYBODY, and we propose to lower our record. We hang out the board:

An Awkward Issue Raised in Congress

SOCIAL EQUALITY IN CARS.

WASHINGTON, December 17 .- In the House this morning, on motion of Mr. Bratton, of South Carolina, Tuesday, January 20, was fixed for the consideration of appropriate resolutions touching the death of J. H. Evins, late member of

The House then resumed the consideration of the inter-State commerce bill, the pending question on a motion to table the motion to reconsider the vote by which the House yesterday adopted an amendment by Mr. O'Hara, (colored) of railroad companies. He appealed to knees. Capricornus, the goat, is down of North Carolina, providing that any the friends of the people not to be led on his marrow bones. He wags his person having purchased a ticket to be conveyed from one State to another shall receive the same treatment and be afforded the same facilities as those furnished any other person holding a ticket of the same class.

The motion to recommit was tabledyeas 149, nays 129. Mr. Crisp, of Georgia, offered an amendment providing that nothing in that Act contained shall be so construed as to prevent any railroad company from providing separate accom-modations for white and colored persons without discrimination. He believed in the equality of all men under the law. He believed that every man should have the right to demand at the hands of other man. There was nothing in his men or colored men should object to separate accommodations. His amend-ment did not force railroad companies to provide separate accommodations. Was it objectionable that in response to public sentiment railroad companies should furnish separate accommodations? Whom did it injure? Why should Congress propose a law which might be regarded as requiring the admixture of the two races in the public conveyances of the

Mr. Smalls, (colored) of South Carolina, opposed the amendment and said that he was glad that it was offered by a member from Georgia. Colored men and women did have trouble in travelling through that State. They had a car in Georgia which was called a second class car. A colored man travelling from Washington to New Orleans when he came to the State of Georgia was compelled by persuasion or force to go into this "Jim Crow" car. He thought that black men. the good sense of the members of the House would vote down the amendment, especially the good sense of those Democrats who were saying "we are going to be the best friend of the colored man." He hoped that the gentlemen who said "this great good man, Cleveland, will do to the colored man," would not stand up for the "Jim Crow" car of Georgia. [Applause on the Republican-

[Applause on Republican side.] He did not believe land which desired to foster any discrim-

instion. Mr. Breckenridge, of Arkansas, offered as a substitute for Mr. Crisp's amendment wish to see the rights of the colored man limited or restricted in the slightest degree. One objection that he had to the amendment of the gentleman from Georgia (Crisp) was that it spoke of colored people as contradistinguished from white people. The gentlemen were mistaken if they thought that Southern people wished to abridge the rights of the colored man under the law, but if Congress prevented the assorting of passengers from the standpoint of public convenience and safety it infused a social question into a commercial question.

Mr. Reed, of Maine, ironically expressed his pleasure at seeing the question changed from one of color into one of assortment. The House, which had determined to pursue these robber barons, had before it a plain question whether it would by enactment confer upon these same barons the privilege of assorting their passengers. Certainly some treasury regulations must be adopted as to the nethod of assortment. [Laughter on the Republican side.] Were men to be assorted on the ground of size, or on the mustache ground, or on the beat l basis? [Laughter.] He objected to having these robber barons assort pasengers on any fanciful basis they might undertake

Mr. Reagan said that the gentleman fact remained that it was the custom of Sunday night last. railroad conductors to assort passengers in Maine and everywhere else. If the gentleman from Maine went to a train unaccompanied by a lady he would not be admitted to the ladies' car.
